

Anti-Joy Presents

HOW TO MARKET YOUR MUSIC

MUSIC DISTRIBUTION FOR 20 YEARS

With Anti-Joy Plus 20 years of music distribution would cost \$399.99 in total, whereas with Amuse Pro it would cost \$1199.99. That's insane. With Anti-Joy, you can cut the costs with \$19.00 (Single) or \$39.00 (Album) one-time. Then your release will **never** be removed from stores, and you will get paid for the rest of your life.

SMART-LINKS & PRE-SAVES

One of the best ways to market your new or upcoming release is undoubtedly with Pre-Save & Smart-Link campaigns. With Anti-Joy all plans include TuneLink.co for free. Amuse on the other hand, doesn't offer Smart-Link features. Therefore, it would approximately cost another \$10/month (\$120/year), just to share your release across platforms. Remember, with Anti-Joy, it's approximately \$19.99/year (\$1.67/month). That's a steal.

ARTIST PAGES

Create your very own website for your artist(s) or yourself for only \$10/month + domain (approx. \$8/year), which would cost approximately \$26/month without Anti-Joy. We are a real money saver, huh?

MERCHANDISE, VINYL & CDS

There is nothing more awesome, than having your own merchandise, vinyls and CDs. Unfortunately, without Anti-Joy, selling merchandise can be a real hassle. You need to buy stock, which can be very expensive, you need to setup a store, and find the right manufacturing service for you. We destroy the need for that, with our **free** merchandise services for artists and labels, included with every plan.

SO, RANDOM GUY WHO MADE THIS, WHY SHOULD I CHOOSE ANTI-JOY?

Well, if we were to compare the total price with/without Anti-Joy, you would probably go screaming around your room in despair, for how much money you could be saving with us. So, I hope you are ready for that. With Amuse, you would spend approximately \$179.99/year, whereas with Anti-Joy, you would spend \$19.99/year.

*Which is without an artist page, if we included the artist page, your deal would be much more insane. With Amuse it'd be \$699.99/year, and with Anti-Joy it'd be \$139.99/year.
