

Anti-Joy Presents

HOW TO MARKET YOUR MUSIC

MUSIC DISTRIBUTION FOR 20 YEARS

With Anti-Joy Plus 20 years of music distribution would cost \$399.99 in total, whereas with DistroKid Musician Plus it would cost \$719.99. That's insane. With Anti-Joy, you can cut the costs with \$19.00 (Single) or \$39.00 (Album) one-time. Then your release will **never be removed from stores**, and you will get paid for the rest of your life.

SMART-LINKS & PRE-SAVES

One of the best ways to market your new or upcoming release is undoubtedly with Pre-Save & Smart-Link campaigns. With Anti-Joy all plans include TuneLink.co for free. DistroKid also offers Smart-Link campaigns (HyperFollow), however they don't offer any email newsletters, meaning you'd manually have to add each email from fans into your email marketing service, which would also add an additional cost of approximately \$14.99/month (about \$179.99/yr).

Keep in mind, with Anti-Joy, it's just \$7.99/yr, what a steal!

Learn more at <https://tunelink.co>

ARTIST PAGES

Create your very own website for your artist(s) or yourself for only \$10/month + domain (approx. \$8/year), which would cost approximately \$26/month without Anti-Joy. We are a real money saver, huh?

Compared prices are from Squarespace

MERCHANDISE, VINYLS & CDS

There is nothing more awesome, than having your own merchandise, vinyls and CDs. Unfortunately, without Anti-Joy, selling merchandise can be a real hassle. You need to buy stock, which can be very expensive, you need to setup a store, and find the right manufacturing service for you. We destroy the need for that, with our **free** merchandise

services for artists and labels, included with every plan.

SO, RANDOM GUY WHO MADE THIS, WHY SHOULD I CHOOSE ANTI-JOY?

Well, if we were to compare the total price with/without Anti-Joy, you would probably go screaming around your room in despair, for how much money you could be saving with us. So, I hope you are ready for that. With DistroKid, you would spend approximately \$139.99/year, whereas with Anti-Joy, you would spend \$19.99/year.

*Which is without an artist page, if we included the artist page, your deal would be much more insane. With DistroKid it'd be \$659.99/year, and with Anti-Joy it'd be \$139.99/year.
